

Delivering Technology Innovation

Usagi Ebanking Innovation is an e-Banking solutions and consultancy company delivering self service solutions to organisations with a history of over 20 years. We provide cost effective banking technology services that lead to enhanced business clarity and focus for our clients. We offer a complete range of technology solutions that transform information into an organisation's business models.

Usagi Ebanking Innovation has worked with a large number of banks and organisations worldwide, providing targeted solutions and services, including specific development work, consultancy, analysis of business requirements, project management and integration of e-Banking installations.

We assist our clients by providing solutions through independent advice and intelligence through Services and Software.

We have over 20 years of experience in the retail banking environment. Our experience has been put in use in a number of banks around the world including Europe, Africa and the Middle East.
